

## Round Table Meeting at COP22

# FBOs and Climate Projects: Mobilizing Funding and Resources

On the road to the Paris Agreement, Faith Based Organisations have played a key role and were vocal about the moral and faith aspects of climate justice. How can we now put the faith leader's statement into practice and plan concrete climate action and projects with a faith based perspective?

Also, a key challenge is to mobilise funds and resources for local and national climate projects. LWF has developed project models with a 'local to global' approach, joining-up concrete interventions on the ground at local level to national and international advocacy, as well as youth-led climate projects in the grassroots. No doubt many others have creative ideas, too. This is why we would like to explore together how we can access the resources to make these happen.

The Lutheran World Federation (LWF) invites you to this Round Table as a space for practitioners, donors and others to explore opportunities.

**Date:** Saturday, 12 November 2016 from 3-5pm

**Venue:** "Camp Climate" at the Equity Point Marrakech Hostel  
Derb El Hammam, Marrakesh

**Facilitators:** Ms Caroline Bader, LWF Youth Secretary, Switzerland  
Ms Elena Cedillo Vargas, LWF Central America, El Salvador
